

2016 Op-Plan: Furniture Tip-Over Project Amendment

1. On page 16, in the **22560 – Children’s/Nursery Products Hazards: Voluntary Standards** section after the Furniture tip-over incident data bullet point, insert: and a project directing staff to draft a briefing package for the Commission to address:
 - a. Current market levels of compliance with ASTM F2057-14, including an approximation, based on available information, of the market share of each of the models found not to be in compliance;
 - b. ASTM F2057-14’s effectiveness when considering foreseeable misuse; and
 - c. Whether ASTM F3096 limits the use of more easily installed anchoring systems and potential alternative solutions.
2. Add a milestone on page 22: “2016MXX – Briefing package prepared – Tip-over.”
