STATEMENT OF WORK

Review of Compliance: Virginia Graeme Baker Pool and Spa Safety Act Public Law No. 110.140

I. Background Information

On December 19, 2007, the President signed into law the Virginia Graeme Baker Pool and Spa Safety Act (VGBA or Act), named after the daughter of Nancy Baker and the granddaughter of former Secretary of State James Baker. Graeme Baker died in a tragic incident in June 2002 after the suction from a spa drain entrapped her under water. The legislation that ultimately resulted in this Act was first introduced by Rep. Debbie Wasserman-Schultz (FL) and was supported by the Baker family and Safe Kids Worldwide.

In recent years, there have been an annual average of 283 drowning deaths (2003-2005) and 2,700 emergency room-treated submersion injuries (2005-2007) involving children younger than 5 in pools and spas. In addition, from 1997-2007, there were 74 reported incidents associated with suction entrapment, including 9 deaths and 63 injuries. The new law is aimed at reducing these deaths and injuries by making pools safer, securing the environment around them, and educating consumers and industry on pool safety.

The Act specifies that on or after December 19, 2008, swimming pool and spa drain covers manufactured, distributed, or entered into commerce in the United States must meet specific performance requirements. Additionally, public swimming pools, wading pools, spas and hot tubs must be equipped with drain covers meeting these performance requirements. Drain covers meeting the new requirements are now making their way into the marketplace. Additionally, in certain instances, public pools and spas must have secondary or back-up devices or systems designed to prevent suction entrapment.

II. Authority

Section 29(a) of the Consumer Product Safety Act, 15.U.S.C. 2078(a), requires the Commission to establish a program to promote Federal-State cooperation for the purposes of carrying out this Act.

Section 29(a) (1) provides that the Commission can accept from any State or local authorities engaged in activities relating to health, safety, or consumer protection “assistance in such functions as injury data collection, investigation, and educational programs, as well as other assistance in the administration and enforcement of the Act... and, if so agreed, may pay in advance or otherwise for the reasonable cost of such assistance...”

III. Objective

The objective of this program is to conduct a review of compliance with Section 1404 of the VGBA. In order to review compliance with the new law, State and local officials shall conduct visits to a limited number of pools or spas to determine if the requirements have been met. Documentation and photographs must be provided evidencing compliance or non-compliance with the law. A U.S. Consumer Product Safety Commission (CPSC) Compliance Officer will follow up with the pool owner and/or operators as needed for the appropriate corrective action.

IV. Specifications

Independently, and not as an agent of CPSC, the contractor shall furnish the necessary personnel, materials, services and facilities to perform the work set forth below, except, as specified in Section XVI, Government-Furnished Supplies/Equipment.

V. Work Statement

A. The contractor shall contact and visit a minimum of fifty (50) pool sites with the State of Kentucky to conduct an onsite inspection to verify compliance of Section 1404 of the VGBA. It shall be noted that each location shall be considered one pool inspection site regardless of the number of pools or spas located at the site. Inspection forms and any necessary training will be provided to the contractor by the CPSC Project Officer. The contractor will provide a proposed list of sites to the Project Officer for approval. The Project Officer will approve or modify the list of inspections sites in writing.

B. The contractor shall develop a proposed list of pool sites for inspection in the designated jurisdiction and submit the list with the proposal. The list shall also include the population of the area where the pool is located. Approval from CPSC Project Officer to the contractor will be transmitted electronically.

C. Contractor Requirements and Qualifications

The contractor shall be a State or local government entity with delegated authority and/or jurisdiction for inspecting pools and spas in the State. Personnel performing inspections shall be regular employees of the contractor. Personnel performing inspections shall possess the following minimum qualifications:

1. The contractor must provide documentation evidencing they are recognized by the State or local government as an inspector with delegated authority and/or jurisdiction for inspecting pools and spas in the State.
2. Knowledge of swimming pool circulation systems and equipment; and
3. Knowledge of the VGBA and the minimum requirements that are needed for compliance with the law.

D. Limitations on Subcontracting

Due to the requirement set forth in paragraphs C and E, work cannot be subcontracted to a commercial entity. Should the State or local government entity

wish to subcontract to another State or local government entity to perform a portion of the work, personnel must still meet all of the requirements of these paragraphs and the contractor must obtain prior approval, in writing, from the CPSC Project Officer for any subcontract arrangement. CPSC's contractual relationship will be with the prime contractor only. If any subcontracting occurs, the contractor is responsible for all oversight of, performance requirements of, and payment to, any subcontractor.

E. Commissioning and Credentialing of State and Local Officials

All State and local officials performing inspections of pools and spas pursuant to the Statement of Work shall be Commissioned and issued credentials in accordance with CPSC Directive 0870.2. Commissioning is the legal delegation of authority to State and local officials to accomplish mutually agreed upon tasks to promote consumer product safety. Credentials are a means of official identification and authorize an individual to administer oaths and affirmations and act for the Chairman in the performance of duties provided for in the laws and regulations administered by the Commission. Credentials are issued only to commissioned individuals who require them to perform official duties. Credentials are "For Official Use Only" and shall not be used as a means of personal identification or for personal purposes. After the contract is awarded, the CPSC Project Officer will coordinate with the contractor to facilitate issuance of credentials to delegated State and local officials that will perform inspections under the Statement of Work.
